## Election/Restrictions

This application contains claims directed to the following patentably distinct species:

A: claims 1-34, 63-76 and 83-102 drawn to array substrate and a method of forming an array wherein an innermost pixel electrode pattern has a substantially circular shape and other pixel electrode are patterned to have circular bands, wherein an innermost portion of the plurality of common electrodes is circular band shaped, and wherein the aperture area is circular band shaped.

B: claims 35-62 drawn to array substrate and a method of forming an array wherein the pixel electrode and the second common electrode pattern each have the substantially gyre shape, wherein the aperture area is substantially gyre shaped.

C: claims 77-82 and 103-114 drawn to array substrate and a method of forming an array wherein an innermost pixel electrode pattern has a substantially rod shape and is disposed within an area of pixel connecting line, and other pixel electrode patterns have a substantially semicircular-arc shape.

The species are independent or distinct because they are mutually exclusive.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none of the claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

71/0011101114111501: 10/020,11

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions

Art Unit: 2871

unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Korea on 04/14/04. It is noted, however, that applicant has not filed a certified copy of the Korean 2004-0025955 application as required by 35 U.S.C. 119(b).

Any inquiry concerning this communication should be directed to Tai Duong at telephone number (571) 272-2291.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
